TERMS OF REFERENCE**A. Background:**

1. There has been reverse migration of workers/ poor in the country due to COVID-19 pandemic. Urban migrants/ poor consisting of workers in manufacturing industries, domestic/ commercial establishments, health sector, service providers, hospitality industry, construction or other such sectors play an important role in urban economy. They come from rural areas or small towns for seeking better employment opportunities in urban areas. In order to maximize savings, they often compromise with living conditions to send remittance to families left behind at their native places. Usually, they live in slums, informal/ unauthorized colonies or peri-urban areas to save on high rental charges. They spend lot of time on roads by walking/ cycling to workplaces, risking their lives to cut on expenses. It also causes drudgery/ anxiety/ psychological breakdown and health problems because they compromise on rest, recuperation and hygiene conditions. Provision of rental housing options closer to workplace will improve their productivity. Therefore providing ease of living through access to dignified affordable housing close to their workplace is an imperative.
2. Housing is one of the basic necessities of life and the same is also espoused in Directive Principles of State Policy enshrined in Constitution of India. A large proportion of urban migrants/ poor from all categories may already have a house or own a piece of land in their respective place of domicile. They may not be interested in ownership housing in urban areas and generally look for affordable rental accommodation to save on expenses. The affordable rental housing will promote inclusive urban development and planned growth of slums.
3. Government of India aims to promote economic activities aligned with the vision of **‘Aatm Nirbhar Bharat’**. Moving forward, Ministry of Housing and Urban Affairs has initiated a scheme for development of Affordable Rental Housing Complexes (ARHCs) for urban migrants/ poor under Pradhan Mantri Awas Yojana - Urban (PMAY-U).
4. ARHCs aim at creating vibrant, sustainable and inclusive affordable rental housing avenues for urban migrants/ poor by ‘aggregation of their demand at a given site’. These ARHCs will provide them dignified living with all civic amenities in proximity to their workplace by utilizing existing Government funded vacant houses in cities by converting them into ARHCs under Public- Private Partnership (PPP) mode or by Public agencies.
5. Targeted tenants for ARHCs will be urban migrants/ poor from Economically Weaker Section (EWS)/ Low Income Group (LIG). They include labour, urban poor (street vendors, rickshaw pullers, other service providers etc.), industrial workers, and migrants working with market/ trade associations,

educational / health institutions, hospitality sector, long term tourists / visitors, students or any other persons of such category. Preference under the Scheme shall be given to persons belonging to Scheduled Castes/ Scheduled Tribes/Other Backward Classes, Widows and working Women, Divyang, Minorities, subject to tenants being from EWS/LIG segments as provisioned by the Government.

6. As a part of this endeavour, the State/UT Govt. intend to undertake convert exiting Government funded 588 EWS flats in Swapn lok at Sikar road, Jaipur into ARHCs accordingly constructed under Jaipur Development Authority, Jaipur. is inviting Agencies, either as single entity or as Consortium, to take up the project on Retrofit/Repair, Develop, Operate, Transfer (RDOT) mode.
7. Agency selected (to be called as Concessionaire) will **Repair/Retrofit** the existing building and ensure all civic infrastructure gaps like water, sewer, sanitation, internal road etc. to make these livable. Thereafter, these will be **Developed** as ARHCs and **Operated** for concession period of 25 years and on completion of the agreement period, the complexes will be **Transferred** back to concerned JDA in the livable condition.
8. Necessary Social Infrastructure (e.g. health centre, anganwadi, creche, community centres etc.) and Neighbourhood Commercial facilities (e.g. shops, grocery store, Medical shops, milk booths, ATM etc.) within the campus may also be developed by Concessionaire as per the prescribed norms/requirement of States/UTs/JDAs.
9. The local authority (to be called as JDA/Parastatals) will fix the initial affordable rent of ARHCs, based on local survey. Subsequently, rent may be enhanced biennially by maximum of 8%, subject to maximum increase of 20% in aggregate over a period of 5 years effective from the date of signing the contract. Same mechanism shall be followed over the entire concession period i.e. 25 years.
10. Concessionaire and tenants (including institutions) will sign a rent agreement abiding to applicable rules and regulations. Tenants will abide by the contract terms and vacate premises without any dispute. In the event that Tenant is found indulging in any unlawful activities and fails to abide to the terms and conditions of rent agreement, Concessionaire can evict the tenants during the contract period.
11. In order to safeguard the interest of stakeholders and avoid conflict/complication, ARHCs will be kept outside the purview of existing State Rental Laws by States/UTs. ARHCs shall be governed by Model Tenancy Act (MTA) or modification of their existing laws in the line of MTA for speedy resolution.

12. Suitable grievance redressal mechanism will be set up by Concessionaire to address the grievances in implementing this scheme from various stakeholders.
13. ARHCs will be exclusively used for rental housing for the eligible tenants for a minimum period of 25 years. In case, ARHCs are found being used for any other purposes than rental, appropriate action will be taken against the Concessionaire, as per applicable provisions/ Acts of State (Govt. of Rajasthan). Further, all incentives/benefits already availed by Concessionaire will be recovered with applicable interest.

Sewer network for each flat has been laid and a separate sewage treatment plant is available for these flats. Water supply lines are also provided in this scheme. One overhead water tank is available for whole SWAPNLOK, JDA scheme from which a water supply network is laid for the supply of water in these flats. The 100ft wide bitumen road which was constructed in this scheme, connects national highway-11(Jaipur-Sikar road). The distance from SWAPNLOK to NH-11 is approximately 4kms.
